

Global Opportunities Fund is a Sub-Fund of CC Funds SICAV plc Class B Investor Shares (ISIN: MT7000026506)

Managed by Calamatta Cuschieri Investment Management Limited, part of the Calamatta Cuschieri Group of companies

Objectives and Investment Policy

Objective: The Sub-Fund aims to achieve a higher level of return for investors by investing, mainly, in a diversified portfolio of equity securities (such as stocks and shares).

Investment Policy: The Investment Manager (“We”) will invest at least 80% of the assets of the Sub-Fund in equity securities. This may also include units or shares in exchange traded funds. We may also invest indirectly in equities and equity linked investments through other funds. We will generally select equity securities issued by blue chip (large, well-known names) companies but we may invest up to 10% of the assets of the Sub-Fund in smaller companies.

With the above criteria, we aim to build a diversified portfolio spread across a number of industries and sectors. We will generally aim to be geographically diversified, but if we think that it could be beneficial, we may focus on one or more countries or regions.

We may use financial derivative instruments such as options, futures and forwards for hedging purposes but not for speculative purposes. Other than in relation to these hedging instruments, the Sub-Fund will not be leveraged.

For temporary periods or where we think that market conditions require a cautious approach, we may also invest in cash and cash equivalents.

Management Discretion: The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Objective and Investment Policy.

Currency: The Shares in the Sub-Fund are denominated in Euro.

Buying and Selling Shares: You can buy and sell Class B Investor Shares (this “Class”) on each business day (Monday to Friday other than public holidays in Malta).

Distribution Policy: This Class is an accumulator class so the income from investments held for the Class will not be paid out as dividends. Instead, income will be re-invested and reflected in the value of the Shares.

Long-term investment: You should consider Shares in the Sub-Fund as a long-term investment. Since entry charges (see below) are deducted from your subscription amount, if you sell your Shares before the price of the Shares increases / dividends are paid you may receive less than the amount invested.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

Risk & Reward Profile

The above risk and reward indicator rates this Sub-Fund as category 6 meaning that the Sub-Fund offers a high risk of making a loss but also a greater chance of making gains. It should be noted that even the lowest category on the indicator does not mean risk free.

The Sub-Fund’s rating on this indicator is based on a combination of simulated and historical data and therefore is not a reliable indication of the risk profile of the Sub-Fund. Further, the rating shown is not guaranteed and may change over time.

The Sub-Fund’s rating reflects the nature of its investments and the corresponding risks to which the Sub-Fund is exposed. These risk factors, which include the risks listed to the right, may affect the value of the Sub-Fund’s investments or expose the Sub-Fund to losses.

Equities: The value of equities and related investments may fluctuate in response to the performance of individual companies and general market conditions.

Concentration & Emerging Markets: The Sub-Fund may be concentrated in a limited number of securities, industry sectors or countries (including emerging or developing markets) and as a result, may be more volatile than more broadly diversified funds or funds without exposure to emerging or developing markets.

Currency Risks: The Sub-Fund may invest in assets designated in currencies other than in Euro. As a result, changes in the rates of exchange between currencies may cause the value of the Shares to go up or down.

Charges and Expenses: Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.

For more information regarding risks, please see the Risk Factors section in the Prospectus. The section entitled “Practical Information” overleaf explains how you may obtain a free copy of the Prospectus and other useful information.

Charges

The charges that you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	2.50%
Exit Charge	None
*This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the Fund over each year	
On-going charge	1.61%
Charges taken from the Fund under specific conditions	
Performance fee	None

The **entry** and **exit** charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** figure is an estimate of the charges. This figure may vary from year to year. It excludes portfolio transaction costs and any entry/exit charges paid by the Sub-Fund when buying or selling units in other collective investment undertakings.

For more detailed information about charges and how these are calculated, please see page 12 of the Sub-Fund's Offering Supplement. The section entitled "Practical Information" below explains how you may obtain a free copy of the Fund's Offering Supplement, the Prospectus and other useful information
